

# THE SPAGHETTI & MARSHMALLOW CHALLENGE

## THE ULTIMATE DESIGN & BUILD EXPERIENCE

The Spaghetti & Marshmallow Challenge is a world renowned, fun and instructive exercise that encourages teams to experience simple but profound lessons in collaboration, creativity & innovation. In this fast-paced challenge, every group member will bring a different theory or idea of how the construction should be made. Teams will be provided with a detailed self-directed overview and rules to help them plan, design & execute. In a set given time, using only the materials provided, teams must construct a free-standing tower as high as possible. Rather than working alone, this unique Spaghetti & Marshmallow Challenge inspires a shared learning experience, opening up various possibilities to achieve success - or not! Once buzzer goes off & time us up, groups will have the opportunity to debrief their experience, having a powerful discussion about what they learned in the process.

Optional Debrief Add-on: (allow 30 mins) Presentation of the 10 proven habits of effective team leaders in the current complex landscape - Learn. Discuss. Reflect. Apply.
